

HORIZON CORE SERIES

PRICE

\$3,499\* MSRP

# VENATIC GTX™

Proof grouped guaranteed with factory ammo:

**.5**  
MOA

The VenaticGTX was designed with the back country hunter in mind. It's built on the iota EKO X stock, a sporter style stock that cuts weight without sacrificing repeatability and accuracy. Other premium components include a TriggerTech trigger, Benchmark stainless barrel, and Horizon Stiller action. A green and grey stock and 5-flute Flat Twist fluting pattern offers alternative design features.

*"A horizon is only the limit of your sight."*

*Rossiter W. Raymond*

When we founded Horizon Firearms in 2012, we wanted to create one-of-a-kind masterpieces that tell stories and are passed down from generation to generation. We've never done things just because it was expected, and that's what made us who we are today – Truly Custom. Thank you for allowing us to be part of your story.

*We specialize in two types of rifle builds:*

## HORIZON CORE SERIES

The Horizon Core Series was designed for the next generation of serious long-range hunters. Hunters that think of hunting as more than just a passive hobby or something done during a short few months each year. Hunters that require only the best components and equipment. Hunters that expect extreme accuracy and long-range capability. Hunters that live for the hunt at their core.

## HORIZON SELECT

We craft our **SELECT SERIES** rifles with the intent to tell a story that is curated by the shooter. The customer is given the opportunity to work with our designers to create a rifle that is personalized down to the finest details. Want your tattoo replicated on the stock? Sure. Want to rest the barrel in the jaw of a fox? We can do that.

We offer a limited number of **SELECT SERIES** rifles a year. The experience the customer receives when creating their rifle cannot be matched or replicated, it's Truly Custom.
